[Nehasurbhi2000@gmail.com](mailto:Nehasurbhi2000@gmail.com) · <https://www.linkedin.com/in/nehakumari-surbhi>

To secure a challenging position as a **Web Developer**, **UI/UX Designer**, and **Frontend Developer**, where I can utilize my **2.9+ years of experience** in creating innovative and user-centric solutions. I am eager to contribute to dynamic projects, collaborate with talented teams, and continually expand my technical skills to craft exceptional, intuitive user experiences that drive success and engagement.

## EXPERIENCE

11 November 2024 – Present

**UI/UX & FRONTEND DEVELOPER**, Vibes Melody PVT. LTD, Bokaro.

- Developed a **Customer Relationship Management (CRM) system** for handling **multi-type stock trading** operations.
- Designed and implemented **RESTful APIs**, ensuring smooth communication between the frontend and backend.
- Built and maintained the **frontend** using **HTML, CSS, JavaScript, and Vue.js**, focusing on responsiveness and performance.

## PROJECTS

**Title:** StreetFx Crm. (Current)

**Technology:** JavaScript, HTML, CSS, JSON, jQuery, Vue JS, Tailwind & Restful API.

**Description:** StreetFX CRM is a **comprehensive stock market management system** designed to streamline trading activities for both **users and administrators**. The CRM provides a user-friendly dashboard, account management features, and essential tools for trading, deposits, withdrawals, and transaction tracking.

**Key-Features:**

- . **Dual CRM System** – Separate dashboards for **users** and **admins** with distinct functionalities.
- . **Admin Control** – Admins can **modify data**, manage user accounts, and oversee stock trading operations.
- . **User Functionality** – Users can **trade stocks**, **view their portfolio**, and **track market trends**.
- . **Responsive Dashboard** – Intuitive interface designed using **Vue.js, HTML, CSS, and JavaScript** for smooth navigation.
- . **RESTful APIs** – Ensures secure and efficient data communication between the frontend and backend.

**Roles:**

- **Frontend Development:** Designed and developed the **User CRM** and **Admin CRM** UI using **Vue.js, HTML, CSS, and JavaScript**.

-**API Integration:** Integrated **RESTful APIs** to ensure smooth communication between the frontend and backend.

-**UI/UX Implementation:** Built **interactive and responsive dashboards** for both users and admins, ensuring a seamless experience.

**System Maintenance:** Regularly optimized, debugged, and maintained the frontend to ensure **smooth performance and scalability**.

---

**Title:** [Forex Broker Solutions Website](#)

**Technology:** JavaScript, HTML, CSS, Bootstrap.

**Description:** Forex Broker Solution is a **one-stop platform** offering **forex brokerage services** and **trading solutions** to businesses and individuals looking to establish or expand their forex operations. The platform provides a wide range of **services** and **products** tailored to the forex industry.

**Roles:**

- Full Website Development** – Designed and developed the entire website, ensuring a **modern, responsive, and user-friendly** experience.
  - Performance Optimization** – Optimized the website for **fast loading speeds** and **seamless user interaction** across all devices.
- 

**Title:** Pro-Signal & Copy Trading.

**Technology:** Vue JS, Laravel, Html, css,js.

**Description:** Pro-Signal and Copy Trading is an **Android mobile app** that provides users with real-time stock signals and the ability to engage in copy trading. The app features a **dual interface**, consisting of both a **user UI** and an **admin panel**, allowing for customized usage and management.

. **User UI** – Users can manage their trading activities, view real-time stock signals, and perform **copy trading** by following expert traders. The interface is designed for ease of use and real-time updates.

. **Admin Panel** – The admin has **full control over the app's operations**, including managing user access, overseeing trading signals, and monitoring the overall system performance.

**Roles:**

- UI Development** – Designed and developed the **user and admin UI** for the **Pro-Signal and Copy Trading Android app**, ensuring both interfaces were **intuitive and easy to navigate**.
- Frontend Development** – Built the **frontend** using **mobile-first design principles**, focusing on responsive and optimized layouts specifically for **Android devices**.

**24 October 2024 – 10 November 2024** [Freelance Work]

**WEB DEVELOPER**, Vibes Melody PVT. LTD, Bokaro.

- Developed a dynamic and responsive [Raise Scope Technologies](#) website using **C#** using **ASP.NET**.
- Designed an intuitive and mobile-friendly UI using HTML, CSS, and JavaScript.
- Utilized **Figma and Adobe Photoshop** for designing the website's UI/UX, ensuring a modern and user-friendly interface.
